Singing for Health:

Seeing the heart and lungs in action

**National Centre for Early Music
York**

7 June, 2018

Research referred to during the day

Clift and Hancox (2001)

Clift, S. and Hancox, G. (2001) The perceived benefits of singing: Findings from preliminary surveys with a university college choral society. *Journal of the Royal Society for the Promotion of Health*, 121, 4, 248-256.

Arts and Health

Clift, S. and Camic, P. (eds)(2015) *Oxford Textbook for Creative Arts, Health and Wellbeing*, Oxford: Oxford University Press.

Stickley, T. and Clift, S. (2017) (eds.) *Arts, Health and Wellbeing: Theory and Research for Practice*. Cambridge: Cambridge Scholars Press.

Systematic reviews

Daykin, N., et al. (2016) *Music, Singing and Wellbeing: For adults living with diagnosed conditions*. London: What Works Wellbeing.

Gick, M. (2011) Singing, health and well-being: A health psychologist's review. *Psychomusicology: Music, Mind & Brain*, 21, 1 & 2, 176-207.

Kang, J., et al. (2017) A review off the physiological effects and mechanisms of singing. *Journal of Voice*, article in press, <https://doi.org/10.1016/j.jvoice.2017.07.008>

Reagon, C. et al. (2016) A mixed-methods systematic review to investigate the effect of group singing on health related quality of life. *Complementary Therapies in Medicine*, 27,1-11.

Wan, C.Y. et al. (2010) The therapeutic effects of singing in neurological disorders. *Music Perception*, 27, 4, 287–295

Singing and heart rhythms

Bernardi, N.F. et al. (2017) Cardiovascular optimization during improvised singing and toning. *Scientific Reports*, 7, 8113, 1-7.

Muller, V. and Lindenberger, U. (2011) Cardiac and respiratory patterns synchronise between persons during choir singing. *PloS ONE*, 6, 9, 1-15.

Vickhoff, B. et al. (2013) Music structure determines heart rate variability of singers. *Frontiers in Psychology*, 4, 334, 1-16.

Singing and the lungs

Morrison, I., et al. (2013) A UK feasibility study on the value of singing for people with chronic obstructive pulmonary disease (COPD), *UNESCO journal*, 3, 3.

Clift, S., et al. (2017) *Singing for Better Breathing: Findings from the Lambeth and Southwark Singing and COPD Project*. Canterbury: Canterbury Christ Church University.

Lewis, A., et al. (2016) Singing for Lung Health—a systematic review of the literature and consensus statement. *npj Primary Care Respiratory Medicine*, 26, 16080; published online, 1 December 2016.

McNamara, R.J., et al. (2017) Singing for adults with obstructive pulmonary disease (COPD). *Cochrane Database of Systematic Reviews*, Issue 12. Art. No.: CD012296.

Recent publications on singing and wellbeing form the De Haan Centre
